Office Action Summary

Art Unit: 1712

DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7 and 21-31, drawn to an electrooptic material and nonlinear optical material, classified in class 252, subclass 582.
 - II. Claims 8-20, drawn to a method of assembling a multilayer electro-optic film, classified in class 427, subclass 333.
2. Inventions II and I (claims 21-31) are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the method may be used to make products with other optical properties than nonlinear optical properties.
3. Inventions I (claims 1-7) and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects, one controlling the reactivity of a self assembled material, and the other used to generate a hydrophilic surface.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Rodney DeKruif on 12/23/02 to request an oral election to the above restriction requirement, but did not result in an election being made as he was unavailable at the time.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
